This article shall be known and may be cited as the "West Virginia Housing Development Fund Act."

§31-18-2. Legislative findings and purpose.

(a) The Legislature hereby finds and declares that as a result of public actions involving highways, public facilities, flood-control projects and urban renewal activities, and as a result of the spread of slum conditions and blight to formerly sound urban and rural neighborhoods, there exists in the State of West Virginia a serious shortage of sanitary, decent and safe residential housing available at low prices or rentals to persons and families of low and moderate income. This shortage is severe in certain urban areas of the state, is especially critical in the rural areas of West Virginia, and is inimical to the health, welfare and prosperity of all residents of the state and to the sound growth of West Virginia communities.

(b) The Legislature hereby finds and declares further that private enterprise and investment have not been able to produce, without assistance, the needed construction of sanitary, decent and safe residential housing at low prices or rentals which persons and families of low and moderate income can afford, to provide sufficient long-term mortgage financing for residential housing for occupancy by persons and families of low and moderate income or to achieve the urgently needed rehabilitation of much of the present low and moderate income housing stock. It is imperative that the supply of residential housing for persons and families displaced by public actions or natural disaster be increased; that private enterprise and investment be encouraged both to sponsor land development for residential housing for such persons and families and to sponsor, build and rehabilitate residential housing for such persons and families; and that private financing be supplemented by financing as in this article provided, to help prevent the recurrence of slum conditions and blight and assist in their permanent elimination throughout West Virginia.

(c) The Legislature hereby finds and declares further that experience has demonstrated that concentration in residential housing developments, or residential housing areas, of only persons and families who, without some form of private or public assistance, do not have incomes sufficient to afford sanitary, decent and safe residential housing, frequently does not eliminate, or avoid, undesirable social conditions and frequently does not permanently eliminate, or avoid, slum conditions, and that in such instances occupancy of some of the residential housing units in such residential housing developments, or residential housing areas, by persons and families of higher income is desirable and beneficial in achieving the stated public purposes for enacting this legislation.

(d) The Legislature hereby finds and declares further that depressed economic conditions in this state and a related lack of employment and business opportunities caused thousands of people to leave this state to find employment elsewhere; that such depressed economic conditions and related exodus of population adversely affected the property tax base of this state, adversely affected the excise tax base of this state, diminished the manpower resources of this state necessary for modern mining, industrial and commercial operations and development in this state, caused the population of this state to include a disproportionately high number of elderly,

disabled and economically disadvantaged persons, resulted in the spread of slum conditions and blight to formerly sound urban and rural neighborhoods, retarded, and continue to retard, the repair and improvement of existing residential housing and the construction of new residential housing, adversely affected, and continue to adversely affect, land development, including the extension and construction of water systems, nonpolluting sewer systems, other utility facilities and off-highway streets and roads essential to new industrial, commercial and residential housing development, critically restricted, and continue to critically restrict, the construction of public housing for occupancy by persons and families at the lowest level of the low and moderate income segment of the population of this state, critically restricted, and continue to critically restrict, the opportunities of persons and families at all levels of the low and moderate income segment of the population of this state for improved residential housing, either newly constructed or which would normally become available to them when vacated by persons and families of higher income occupying newly constructed residential housing, and critically restricted, and continue to critically restrict, the construction of new residential housing, including, but not limited to, nursing homes and intermediate care facilities, of design and location suitable for occupancy by disabled and by elderly persons; that as a result of public actions involving highways, public facilities, flood-control projects and urban-renewal activities undertaken as a part of the programs of this state to improve economic conditions and increase employment opportunities in this state with a view to improving the health, welfare and prosperity of residents of this state and reversing the outward movement of population in this state, extensive areas which are suitable for industrial, commercial and residential housing uses have been, or in the near future will be, opened up for development for such purposes but in many instances will be without the land development, including water and nonpolluting sewer systems, other utility facilities and off-highway street and road improvements essential to use of the same for such purposes; that as a result of the unique physical, economic, demographic and other characteristics of this state, including its rugged mountainous terrain, scarcity of land at low or moderate cost suitable for residential housing, low population density and cultural preferences which are not suited for the denser, larger-scale housing projects typical of more urban areas and high costs of land development and housing construction, the difficulties of providing land development, including water and nonpolluting sewer systems, other utility facilities and off-highway streets and roads, and of providing residential housing, are unusually severe within this state and have restricted and continue to restrict, land development and housing construction needed for the people of the state; that as a direct consequence of the foregoing there exists in this state a serious shortage of sanitary, decent and safe residential housing available for occupancy by persons and families of all but the highest income levels and there exists in this state a serious shortage of water and nonpolluting sewer systems, other utility facilities and off-highway street and road developments essential to utilization of land for industrial, commercial and residential housing purposes which, due to public actions involving highways, public facilities, flood-control projects and urban-renewal activities, is, or will soon become, available for needed industrial, commercial and residential housing purposes; that these shortages are severe in certain urban areas of this state, are especially critical in rural areas of this state and are inimical to the present and future health, welfare and prosperity of all residents of this state and to the sound growth and development of communities in this state; and that unless promptly remedied these shortages will continue to seriously retard the sound economic growth and development of this state, the related property tax and excise tax bases of this state and the availability in this state of manpower resources essential to modern mining, industrial and

commercial operations and development which are essential to the health, welfare and prosperity of this state and its residents.

(e) The Legislature hereby finds and declares further that private enterprise and investment have not been able to produce, or provide mortgage financing for, sufficient new sanitary, decent and safe residential housing at prices or rentals low enough to enable sufficient persons and families having incomes at or immediately above the higher level of the low and moderate income segment of the population of this state to occupy the same and thereby provide opportunities for persons and families of lesser income to occupy existing sanitary, decent and safe residential housing thereby vacated, have not been able to produce, or provide mortgage financing for, sufficient new residential housing essential to retain and attract qualified manpower resources in and to many areas of this state where such resources are, or shortly will be, critically needed for existing, expanding and new mining, industrial and commercial operations and development, have not been able to produce, or provide mortgage financing for, sufficient new residential housing, including, but not limited to, nursing homes and intermediate care facilities, of design and location suitable for occupancy by elderly and by disabled persons, have not been able to finance sufficient land development, including extensions or construction of water and nonpolluting sewer systems, other utility facilities and off-highway streets and roads, essential to utilization of undeveloped areas of this state for industrial, commercial and residential housing purposes, and have not been able to achieve urgently needed rehabilitation of much of the present housing stock of this state; that it is imperative that the supply of residential housing necessary to retain and attract qualified manpower resources in and to many areas of this state where such resources are, or shortly will be, critically needed for existing, expanding and new mining, industrial and commercial operations and developments be provided, that sufficient new residential housing, including, without limitation, nursing homes and intermediate care facilities, designed and located so as to be suitable for occupancy by elderly persons and by disabled persons be provided, that needed public housing for occupancy by persons and families at the lowest level of the low and moderate income segment of the population of this state be provided, that land development, including water and nonpolluting sewer systems and other utilities and off-highway streets and roads in this state necessary or desirable for new commercial, industrial and residential housing uses be provided, and that the existing political subdivisions of this state, and private enterprise and investment resources in this state, be encouraged to sponsor and finance land development, including water and nonpolluting sewer systems, other utilities and off-highway streets and roads, and to finance, construct and rehabilitate such residential housing; and that it is necessary that such efforts be supplemented by this state as in this article provided.

(f) The Legislature hereby finds and declares further that political subdivisions in West Virginia which are presently authorized and empowered by law to acquire, construct, operate and manage public housing projects have not been able to acquire and construct, even with available federal and state assistance, public housing projects sufficient to fulfill the needs for sanitary, decent and safe residential housing for occupancy by persons and families at the lowest level of the low and moderate income segment of the population of this state who have been entitled to occupy public housing in many smaller municipalities in West Virginia and especially in the rural areas of West Virginia; that the primary cause of such shortage of needed public housing projects is the inability of such political subdivisions to remedy such shortages because the number of units of public housing needed within its territorial jurisdiction is not sufficient to generate, and justify

the expenditure of, adequate funds to provide the requisite arranging of financing for, and planning, development, acquisition, construction, operation and management of such public housing; and that the acquisition, construction, planning, development, financing and management of public housing projects in this state by a governmental instrumentality and public body corporate with statewide jurisdiction as authorized herein will permit or facilitate the arranging of financing for, and planning, development, acquisition, construction, operation or management of public housing units, even though such units are included in several projects each of which contains a relatively small number of such units, sufficient in the aggregate to generate, and justify the expenditure of, sufficient funds to provide the requisite arranging of financing for, and planning, development, acquisition, construction, operation and management of such public housing, thereby providing the means to alleviate the existing shortages of public housing in many municipalities in West Virginia and in the rural areas of West Virginia.

(g) The Legislature hereby finds and declares further that its intention by enacting this legislation is to provide for the continuation of the West Virginia Housing Development Fund, the corporate purpose of which is to provide financing for development costs and land development to public and private sponsors of land development in this state; further to provide federally insured construction loans to public and private sponsors of land development or to public and private sponsors of residential housing for occupancy by eligible persons and families; further to provide uninsured construction loans to public and private sponsors of land development or to public and private sponsors of residential housing for occupancy by eligible persons and families or to eligible persons and families who may construct such housing; further to provide long term federally insured mortgage loans to public and private sponsors of residential housing for occupancy by eligible persons and families and to eligible persons and families who may purchase or construct such housing; further to provide long-term uninsured mortgage loans to public and private sponsors of residential housing for occupancy by eligible persons and families and to eligible persons and families who may purchase or construct such housing; further to provide technical, consultative and project assistance service to public and private sponsors of such land development or residential housing; further to increase the construction of residential housing for occupancy by eligible persons and families through participating in the making of, or the making of, loans to mortgagees approved by the Housing Development Fund, and taking as collateral security therefor, or purchasing, or investing in long-term federal mortgages or federally insured mortgages, or uninsured mortgages, on residential housing constructed in this state, thereby increasing the supply of funds for long-term mortgage financing of residential housing for occupancy by eligible persons and families and freeing funds for use in short-term construction financing of residential housing for occupancy by eligible persons and families; further to plan, develop, finance, acquire, construct, mortgage or otherwise encumber, operate, manage, sell, lease or otherwise dispose of public housing projects; and finally to assist in coordinating federal, state, regional and local public and private efforts and resources to otherwise increase the supply of such residential housing.

(h) The Legislature hereby finds and declares further that in accomplishing this purpose, the West Virginia Housing Development Fund, heretofore created and established by this article, is acting in all respects for the benefit of the people of the State of West Virginia to serve a public purpose in improving and otherwise promoting their health, welfare and prosperity, and that the West Virginia Housing Development Fund, heretofore created and established, is empowered,

hereby, to act on behalf of the State of West Virginia and its people in serving this public purpose for the benefit of the general public.

(i) The Legislature hereby finds and declares further that during a period of national growth this state has experienced a lack of employment and business opportunities, which have caused a reduction in the tax base of the state, diminishing the resources available to this state to provide for the health, safety and welfare of its citizens; that there has been and continues to be a need for economic development and improvement and capital investment in this state, including, but not limited to, the real estate and construction industries, both residential and nonresidential; that there exists in this state a shortage of the capital needed to finance general economic development through investment in enterprises which have the potential to create new employment opportunities in this state and that there also exists a shortage of construction and real estate development financing, underwriting and construction expertise, which shortage can be alleviated by utilizing the expertise of the Housing Development Fund and its staff, which are hereby determined to be suited to facilitate, implement and undertake the general economic development and real estate construction and development projects, both residential and nonresidential, which are necessary to support the capital base and employment levels and remedy many of the underlying causes of the current economic difficulties existing in this state; that many other states have facilitated the development of capital and the growth of employment opportunities through state programs which provide combined technical and financial assistance for business and real estate development in such states; and the Legislature hereby finds and declares further in support of the foregoing that it shall be a corporate purpose of the Housing Development Fund to provide assistance by loans, grants or otherwise for the costs, including development and direct and indirect costs, and financing for public and private sponsors of land development, residential housing and nonresidential projects in this state, and further to provide construction loans and mortgage loans (including privately insured and uninsured) to public and private sponsors of land development and residential housing and nonresidential projects in this state, to make grants and provide technical, consultative and project assistance services to public and private sponsors of land development and residential housing and nonresidential projects in this state, and to plan, develop, finance, acquire, construct, renovate, improve, mortgage or otherwise encumber, operate, manage, sell, lease or otherwise dispose of general economic development and land development projects and residential projects and nonresidential projects in this state.

(j) The Legislature hereby finds and declares further that the Housing Development Fund and its staff have extensive expertise in real estate development financing, underwriting and construction activities, and further that there is a need on behalf of public and educational bodies to facilitate the construction of new facilities or renovation of existing facilities, which need can best be met by making available to such public agencies and bodies the real estate and construction development services and consultative expertise of the Housing Development Fund at such cost and fees as the Housing Development Fund would normally impose, subject to the provisions of this article relating to the powers of the Housing Development Fund.

(f) The Housing Development Fund may expend any income from the financing of development costs and land development with moneys in the land development fund, and from investment of such moneys, in payment, or reimbursement, of all expenses of the Housing Development Fund which, as determined in accordance with procedures approved by the board of directors of the Housing Development Fund, are fairly allocable to such financing or its land-development activities: Provided, That no funds from the land development fund shall be used to carry on propaganda, or otherwise attempt to influence legislation.

(g) The Housing Development Fund shall create and establish a special account within the land development fund to be designated as the "special project account" into which the Housing Development Fund shall, effective July 1, 1992, deposit the sum of \$10,000,000. Such funds shall be governed, administered and accounted for by the Housing Development Fund as a special purpose account separate and distinct from any other moneys, fund or funds owned or managed by the Housing Development Fund. The sole and exclusive purpose of such account is to provide a source of funds for the financing of infrastructure projects including distribution from time to time to the West Virginia water pollution control revolving fund created pursuant to section three, article two, chapter twenty-two-c of this code: Provided, That such distribution shall not exceed \$5,450,000; and distribution from time to time to fund soil conservation projects: Provided, however, That such distribution shall not exceed \$4,550,000. Until so disbursed, the moneys initially deposited or thereafter from time to time deposited in such special project account, may be invested and reinvested by the Housing Development Fund as permitted under subdivision (8), section six of this article. Any funds remaining in the special project account on July 1, 1995, shall automatically revert to the General Fund of the Housing Development Fund free of any limitations provided in this section. The provisions of subsections (c), (d), (e) and (f) of this section do not apply to the special project account created in this section.

§31-18-20b. Mortgage finance bond insurance fund.

(a) There is hereby created and established in the State Treasury a special trust fund to be designated the "mortgage finance bond insurance fund" into and from which moneys shall be paid as provided in this section. The mortgage finance bond insurance fund shall be under the supervision and control of the state sinking fund commission and all moneys and securities held therein or investments thereof shall be held in trust subject to use and application only as provided herein and in the resolution or resolutions of the Housing Development Fund authorizing the issuance of any mortgage finance bonds, notwithstanding any other provision of law. The mortgage finance bond insurance fund shall be kept separate and apart from all other moneys and funds of the state and the Housing Development Fund is hereby authorized to pledge any amount or amounts held therein to the payment of the principal (including annual sinking fund payments) of, and interest on, mortgage finance bonds in the manner and to the extent and on such terms and conditions as may be provided by the Housing Development Fund.

(b) In addition to any other fees and charges which the Housing Development Fund may charge on loans, it shall charge on all loans or mortgages made or purchased with the proceeds of sale of mortgage finance bonds, except federally insured construction loans, federally insured mortgages, or federal mortgages, a special bond insurance commitment fee and special bond

insurance premiums. The special bond insurance commitment fees and special bond insurance premiums so charged shall be remitted to the state sinking fund commission, promptly after the last day of each calendar quarter, by the Housing Development Fund, or by any trustee, trustees, agent or agents designated by the Housing Development Fund to receive the same and shall be held, invested and, together with all investment income thereon, reinvested by the state sinking fund commission in investments authorized under section six of this article.

(c) Simultaneously with the issuance of any mortgage finance bonds, the Housing Development Fund shall cause to be deposited in the mortgage finance bond insurance fund an amount of the proceeds of sale and delivery of such mortgage finance bonds which together with the sum of the amount then on deposit in the mortgage finance bond insurance fund and in reserves theretofore or then set aside with a trustee or trustees and held pursuant to the resolution or resolutions authorizing the issuance of such bonds only for the payment of designated mortgage finance bonds prior to, or at, their maturity, shall equal the minimum bond insurance requirement. Except as provided in subsection (e) of this section, amounts on deposit in the mortgage finance bond insurance fund which are in excess of the minimum bond insurance requirement may be withdrawn from the mortgage finance bond insurance fund and paid to or upon the order of the Housing Development Fund upon thirty days' notice in writing to the state sinking fund commission. For the purposes of determining any amounts held in the mortgage finance bond insurance fund, securities held in or other investments of the mortgage finance bond insurance fund shall be valued at par. If, at any time, the Housing Development Fund shall determine that because of defaults or other reasons, the moneys available therefor shall be insufficient to pay the principal, including the annual sinking fund payment, of, and interest on, mortgage finance bonds becoming due during the next ensuing six-month period, the Housing Development Fund shall give written notice to the state sinking fund commission to transfer the amount of moneys required for such payment, on or before the time and to such trustee or paying agent for any of the mortgage finance bonds as shall be specified in such notice, and the state sinking fund commission shall make such transfer.

(d) In the event that the sum of the amount held in the mortgage finance bond insurance fund and in reserves set aside with a trustee or trustees and held pursuant to the resolution or resolutions authorizing the issuance of such bonds only for the payment of designated mortgage finance bonds prior to, or at, their maturity, shall be less than the minimum bond insurance requirement, the chairman of the Housing Development Fund shall certify, on or before December 1, of each year, the amount of such deficiency to the Governor of the state, for inclusion, if the Governor shall so elect, of the amount of such deficiency in the budget to be submitted to the next session of the Legislature for appropriation to the state sinking fund commission for deposit in the mortgage finance bond insurance fund: Provided, That the Legislature shall not be required to make any appropriation so requested, and the amount of such deficiencies shall not constitute a debt or liability of the state.

(e) Subject to any agreement or agreements with holders of outstanding notes and bonds of the Housing Development Fund, any amount or amounts paid by the state into the mortgage finance bond insurance fund pursuant to this section shall be repaid to the state as, when, and to the extent, amounts held in the mortgage finance bond insurance fund at any time or times after any

payment by the state into the mortgage finance bond insurance fund shall exceed the minimum bond insurance requirement at such time or times or as may otherwise be provided by law.

§31-18-21. Prohibition on funds inuring to the benefit of or being distributable to directors, officers or private persons; transactions between the Housing Development Fund and directors or officers having certain interests in such transactions.

(a) No part of the funds of the Housing Development Fund, or of the operating loan fund, or of the land development fund, shall inure to the benefit of or be distributable to its directors or officers or other private persons except that the Housing Development Fund shall be authorized and empowered to pay reasonable compensation, other than to the directors, including the chairman, vice chairman and treasurer of the board of directors and the secretary of the board of directors, for services rendered and to make loans and exercise its other powers as previously specified in furtherance of its corporate purpose: Provided, That no such loans shall be made, and no property shall be purchased or leased from, or sold, leased or otherwise disposed of, to any director or officer of the Housing Development Fund.

(2) Such transaction is fair and reasonable to the Housing Development Fund; and

(3) In the case of a director, such director abstains from voting or written consent as to the authorization, approval or ratification of such transaction by the board of directors of the Housing Development Fund.

§31-18-23a. Bond issues under the Federal Revenue Adjustments Act of 1980.

Under subtitle A of Public Law 96-499, which is called the "Mortgage Subsidy Bond Tax Act," a subtitle of the "Revenue Adjustments Act of 1980," this state is permitted to issue up to \$200,000,000 per year during the three year life of the act. Pursuant to that act, the Legislature hereby authorizes the West Virginia Housing Development Fund to issue bonds in the aggregate amount of \$100,000,000 in the year 1983. County and municipal governments are hereby authorized to issue bonds in the amount of \$100,000,000 during the year 1983: Provided, That the allocation to a county or municipality is to be based on a formula using the percentage of the state population residing in the county or municipality based on the 1980 census: Provided, however, That use of the allocation by a county or municipality is conditioned upon such county or municipality providing to the Housing Development Fund an analysis supporting the demand for the bonds to be issued or firm commitments from qualified lenders participating in the program. Each county and municipality shall have until September 30, 1983, to sell bonds

allocated under this act, after which time all unused authority is then allocated to the Housing Development Fund. The Housing Development Fund shall determine the manner of reallocation for such unused authority or may itself issue bonds for all or part of the unused authority. Counties and municipalities choosing not to issue bonds may assign any unused authority to another county or municipality upon notification of such action to the Housing Development Fund. Such transfer must result in a sale of bonds by September 30, of that year. Any county or municipality may apply in the manner prescribed by the Housing Development Fund for reallocation or an additional allocation.

§31-18-24. Annual audit; reports to Joint Committee on Government and Finance; information to joint committee or legislative auditor.

The Housing Development Fund shall cause an annual audit to be made by an independent certified public accountant of its books, accounts, and records, with respect to its receipts, disbursements, contracts, mortgages, leases, assignments, loans, and all other matters relating to its financial operations, including those of the Operating Loan Fund, the Land Development Fund, and the Mortgage Finance Bond Insurance Fund. The person performing such audit shall furnish copies of the audit report to the commissioner of finance and administration, where they shall be placed on file and made available for inspection by the general public. The person performing such audit shall also furnish copies of the audit report to the Speaker of the House of Delegates, the President of the Senate, and the majority and minority leaders of both houses. The audit report shall be transmitted to the Speaker of the House of Delegates, the President of the Senate, and the majority and minority leaders of both houses of the Legislature electronically. Further, the report shall be provided to the legislative librarian to be posted to the legislative website. No hard copy of the audit report shall be issued; however, upon request a hard copy shall be provided.

In addition to the foregoing annual audit report, the Housing Development Fund shall also render every six months to the Joint Committee on Government and Finance a report setting forth in detail a complete analysis of the activities, indebtedness, receipts, and financial affairs of such fund and the Operating Loan Fund, the Land Development Fund, Affordable Housing Fund, and the Mortgage Finance Bond Insurance Fund. Upon demand, the Housing Development Fund shall also submit to the Joint Committee on Government and Finance or the Legislative Auditor any other information requested by such committee or the Legislative Auditor. The report shall be available electronically only, and no hard copy of the report shall be issued; however, upon request a hard copy shall be provided.

§31-18-25. Severability clause.

If any provision of this article or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the article, and to this end the provisions of this article are severable.

§31-18-26. Projects not to be deemed public improvements.

No project or business facility acquired, constructed, maintained, or financed in whole or in part by the Housing Development Fund shall be deemed to be a "public improvement" within the meaning of the provisions of article five-a, chapter twenty-one of this code, as a result of such financing.

§31-18-27. Documentary materials concerning trade secrets; commercial, financial, or personal information; confidentiality.

Any documentary material or data made or received by the Housing Development Fund for the purpose of furnishing assistance, to the extent that such material or data consists of trade secrets, commercial, financial or personal information regarding the financial position or business operation of such business or person, shall not be considered public records and shall be exempt from disclosure pursuant to the provisions of chapter twenty-nine-b of this code. Any discussion or consideration of such trade secrets, commercial, financial or personal information may be held by the Housing Development Fund in executive session closed to the public, notwithstanding the provisions of article nine-a, chapter six of this code: Provided, That the Housing Development Fund shall make publicly available the following information regarding executed loans: (1) the name of the debtor, (2) location(s) of the project, (3) amount of the loan or financial assistance provided by the fund, (4) the purpose of the loan or financial assistance, (5) the term, rate, and interest of the loan, and (6) the fixed assets which serve as security for the loan.

§31-18-28. West Virginia Property Rescue Initiative: findings; technical assistance and revolving loan program for removal of dilapidated housing; reporting required.

(a) The program set forth in this section shall be known as the "West Virginia Property Rescue Initiative".

(b) The Legislature finds that a great number of dilapidated housing structures exist throughout the state and that county and municipal officials often lack the training and resources to identify, purchase, remove, or rehabilitate these structures and return the property to a condition beneficial to their communities. The Legislature further finds that these structures contribute to increased crime in neighborhoods, including illicit drug use and sales; pose threats to health and safety; decrease the values of surrounding properties; and reduce the quality of life in their communities and neighborhoods. The Legislature further finds that improved properties expand housing opportunities, increase property values and enhance the quality of life in communities and neighborhoods.

(c) The Legislature finds that the housing development fund, as a public body corporate and the state's leading housing authority, has the expertise and resources to lead a property rescue initiative to assist counties and municipalities in removing or rehabilitating dilapidated housing and improving their communities and neighborhoods by providing technical assistance, training and consultation as well as needed financial resources.

(d) The housing development fund shall implement the West Virginia Property Rescue Initiative to provide technical assistance, training and consultation to counties and municipalities which include, but are not limited to, the following: (1) maintaining lists of contractors, developers,

nonprofit organizations, disposal companies and land fills available to assist counties and municipalities in the removal or rehabilitation of dilapidated properties; (2) providing information on the use of the West Virginia Property Rescue Initiative in other jurisdictions; and (3) conducting or facilitating seminars in strategic areas of the state to encourage and inform community leaders in counties and municipalities on how to successfully use the West Virginia Property Rescue Initiative to improve their communities and neighborhoods individually and in combination with other counties or municipalities for economies of scale and efficient use of local resources.

(e) For the purpose of the West Virginia Property Rescue Initiative, the housing development fund shall establish and fund a revolving loan program to make funding available to counties and municipalities for the removal of dilapidated structures on such terms for repayment of loans, with or without interest, as the housing development fund finds appropriate and to provide technical assistance, training and consulting services to counties and municipalities regarding the identification, purchase, removal and rehabilitation of properties to maximize the benefits of the West Virginia Property Rescue Initiative on an ongoing basis, with a commitment by the housing development fund to deposit at least \$5 million dollars to the West Virginia Property Rescue Initiative Revolving Loan Fund over a five year period beginning on July, 2015, at the rate of at least \$1 million dollars per fiscal year.

(f) Notwithstanding any other provision to the contrary, the revolving loan fund established in this section shall not be considered or construed as an obligation of the state.

(g) To enhance the success of the West Virginia Property Rescue Initiative, the housing development fund may, as a form of its technical assistance, seek grants and awards of funding to be made to the housing development fund or directly to counties and municipalities for their property rescue initiatives, from public and private organizations and government agencies, federal and state, in order to provide both for additional funding for the property rescue revolving loan fund or the repayment of loans and for grants to counties and municipalities with dire need and limited resources such that special aid and funding is needed to begin and complete their local property rescue initiatives.

(h) The executive director of the housing development fund shall report on the West Virginia Property Rescue Initiative to the Joint Committee on Government and Finance annually during the initial five years of the West Virginia Property Rescue Initiative. At the end of the initial five years of the West Virginia Property Rescue Initiative, the housing development fund board of directors shall evaluate participation and success of the West Virginia Property Rescue Initiative as well as other aspects of the West Virginia Property Rescue Initiative in order determine whether and how to adjust services and levels of funding under this section.

§31-18-29. Dissolution of West Virginia Affordable Housing Trust Fund.

Upon termination of the West Virginia Affordable Housing Trust Fund, the Housing Development Fund shall provide for the payment of all debts, obligations, or expenses of the Affordable Housing Trust Fund, and all assets remaining in the Affordable Housing Trust Fund shall be transferred to the West Virginia Housing Development Fund.
